

# 100 BEST FLEETS

## North Carolina Clean Energy Technology Center & The 100 Best Fleets in The Americas™

Present:

### **Solutions to the Biggest Fleet Challenges in 2019; Best Practices from *The 100 Best Fleets***

---

Please join us in **congratulating** all of the [2019 winners](#) of *The 100 Best Fleets in the Americas*. In our 20th year, as before, there were many outstanding applications. In addition to recognizing excellence, a major purpose of the contest is to identify best practices – and to spread these great ideas to others in the industry. So, **we have asked the three top fleets to share some of their secrets of success with you.**

This is need to-know-information. What these three fleets did to distinguish themselves among all public fleets. There are 38,000 public fleets in North America alone...these are the best of the best. Learn from their best practices. Many of these are practices you can use the next day in your own operation. We only learn from the best.

Also hear the emerging technologies they use to do more with less. This exclusive one-time-only webinar has limited capacity. Please RSVP at your earliest convenience.

**Wednesday, May 29, 2019; 11:00 a.m. PDT/2:00 p.m. EDT**

*The Sustainable Fleet Webinar's capacity is limited.*

*Please reserve at your earliest convenience.*

*This Webinar is **FREE!***

Click below and [register](#), we will send you the call-in details shortly.

This information is intended for your **entire team to listen in**. Find out where you compare to the very best-of-the-best!

**Register for the Top 3 Fleets Best Practices Webinar**
